AIM

Aim of the small scale consultations is to bring together actors from government, donors and civil society to reflect on the New Deal Implementation processes in the country (Fragility Assessment, Compact, Indicators etc) to feed into the Implementation Working Group Workshop on the Guidance Note updating process.

CONTENT

The following questions should be addressed (depending on the country context):

1. Has the Fragility Assessment (FA) effectively captured the drivers of conflict, fragility and resilience?
2. How is progress being measured against the FA?
3. How did the FA process and findings feed into the development of the Compact?
4. What are the lessons emerging to date around the role, utility and impact of the New Deal Compact?
5. How is the FA, indicators and Compact feeding into national planning processes as well international partner planning frameworks and strategies?
6. How are compacts informing UN, donor and other international partner planning frameworks and strategies in ways that offer lessons?
7. What recommendations do national teams have for guidance on the FA, Compacts, Indicators, and general ND Implementation? How can these guidance products be made easier to understand and better to utilise, particularly for practitioners in the field?
